South Africa

WINE MAKING NOTES

The vineyards are in the Banghoek Valley, Stellenbosch. Elevation is 300-350m above sea level and is mostly southerly facing. This provides for moderate temperatures resulting in the late but slow ripening of the fruit. The soils are made up of leached, decomposed granite and sandstone. Fermentation and aging in stainless steel after a short skin contact.

ABOUT THE WINERY

The Zorgvliet Estate is in Banghoek Valley, a small subregion just 4 miles outside of Stellenbosch, is historically home to dense forest, dangerously steep land, lions, and leopards. Apparently you still find leopards in these surrounding mountains today.

Zorgvliet, pronounced 'Sorg-fleet' translates to 'no worries.' Grapes are grown on the steep slopes of the Simonsberg Mountain in vineyards that are among the highest in Stellenbosch.

Where did Zorgvliet get the name Silver Myn? In 1740 Frans Diederik Muller claims to have discovered silver, copper and even gold between the two big rocks in the Simonsberg Mountains. Yet no silver was found after 5 years of searching, and Muller was sent home as an imposter. Who knows what other mysteries and secrets lie in the Banghoek Valley?

TASTING NOTES

The nose is tropical with hints of cut grass and cranberry. The wine is crisp on the entry but rounded in the mid palate with an explosion of red berry flavours and fruit sweetness on the finish. A delicate and dry rosé to accompany you on hot summer days.

FOOD PAIRING

Pairs well with appetizers, salads, seafood and poultry
